

Earth/ Ground Galvanised Steel Clamp

Earth/ Ground Galvanised Steel Clamp is available with braided copper shunt and is made using hot dip galvanized steel sheets for use in welding purpose in construction industry. Earth/ Ground Clamp is equipped with a braided copper shunt that facilitate ease of operation. Earth/ Ground Clamp requires 230 or 350 Ampere current to operate efficiently. Earth/ Ground Galvanised Steel Clamp that comes under Croco series and ECCR20 model can cover a surface area of 25mm².

Mehta Sanghvi & Co. is the manufacturer of Earth/ Ground Galvanised Steel Clamp. Mehta Sanghvi & Co. offers wide range of welding equipments and accessories that include MIG torches, electrode holders, cable connectors, earth clamps or ground clamps, rotary ground clamps, chipping hammers as well as cutting systems, safety equipments, heating systems, gas regulators and manifolds.

Salient features of Earth/ Ground Clamp with Braided Copper Shunt:

- Made using hot dip galvanized steel sheets
- Equipped with a braided copper shunt
- Requires 230 or 350 ampere current
- Can cover a surface area of 25mm²
