

PVC Sleeving & Tubes

Also
RoHS
Available on Request

Also
R-E-A-C-H
Available on Request

Applications

- Internal Wiring as OEM
- Automobile Harness Wiring
- Applied as Insulation
- General application in Industry

Composition

- Our product "ROLYSET" are manufactured with virgin grade of Poly Vinyl Chloride (PVC) for General purpose application up to 70° C.
- All chemicals are blended in particular process, so it can give optimum result on application.
- All possible care taken for colour Fastness for prolonged impact of whether.
- A Proper grade of material assures better insulation & mechanical properties.
- Insulation & mechanical properties are as per IS : 5831 for type "A" & ST I.

Colour:

Red, Yellow, Blue Black, Green

Temperature:

- 70° C General Purpose
- 105° C for Automobile harness.
- HRFR Grade for High Thermal Area.

Rolyset Soft Sleeving Tube For Printing & Ferruling

Item Code	ID mm.	Thick mm +/-0.1	Length Pakg Mtrs
