## Reverse Osmosis System (RO)

- ❖ Reduces mineral concentration and dissolved solids present in raw water, by applying high pressure through a semi - permeable membrane
- ❖ Available in a wide range – FRP & SS
- ❖ Easy to install, operate and service
- ❖ Visual Monitoring System for easy troubleshooting
- ❖ Stainless steel, multi-stage centrifugal pump, with inline suction and delivery for easy maintenance and access
- ❖ Online product water quality monitoring
- ❖ Membrane and pump protection feature plus minimum pipe length to reduce system resistance
- ❖ Proprietary cleaning and anti-scalant
