

## CSK FIBER CONNECTOR AND SPLICE INSTALLATION TOOLS

Fiber connector and splice installation tools contain all the tools and material required to terminate Glass Fiber with ST Optical Connectors & permanently Splice Optical Fibers. By adding a Polishing Disk for the respective connector it can be used for any other Optical Connector like FC/PC, Biconic, D4, Diamond etc. The kit is designed around the high performance, low cost Ultra splice which accepts any combination of 250 microns (loose tube) upto 900 microns (tight buffer) diameter. A splice for 140 microns clad diameter is also available with loss less than 0.2 dB. A consumable refill pack for terminating 50 additional connectors is also available. Tools are supplied in a rugged carrying case. A complete set of Fiber Termination instruction Manual is included.
