

Solar Delineator

Specifications:

- **Diameter** : 100mm, Height - 93mm
- **Plastic** : Polycarbonate Clear, UV resistant
- **Mesh** : Optional, Pole Height 1 meter [or optional],
- **Powder coated** : 40 microns with two rings of High Intensity
- **Reflective Tape of 3M brand**
- **Solar** : Panel: Mono crystalline 1 Polycrystalline - 4
Volts / 300mA
- **Battery** : 2 x 1.2 Volts, Nimh 1800mAh; High
Temperature Batterie
- **Back up** : 36 hours after full charging
Color: Red, Blue, Yellow, White, Green
- **Flashing | Blinking** : Still: Customised
- **Visibility** : Over 1 Kilometer

Advantages:

- Warns in advance about T-junctions, obstructions, round about and other hazardous situations
- Autonomous control, no switching ON-OFF required
- No risk of electric shocks etc.
- Clean & Green energy
- No digging of roads
- No permission required
