

Laser Sheet Cutting Services

Rapid cutting speeds, versatility, and tight tolerances (held to $\pm .005"$, depending on material and thickness) enable our lasers to perform tasks that would be difficult using conventional machinery.

Machine Fiber Laser

- 1 KW to 4 KW
- Nambour of Machine: 6

Bed sizes:

- 4 X 2 mtrs.
- 3 X 1.5 mtrs.

Material Cutting Capacity:

- 12 mm on Carbon Steel
- 06 mm on Stainless Steel
- 03 mm on Galvanize
- 03 mm on Brass
- 06 mm on Copper

-
- Precision Sheet Metal Fabrication
 - Complex Shape Cutting
 - Prototype Development
 - Faster Cutting With High Accuracy
 - Batch Production
-
