Dear Sir

We would like to introduce ourselves as one of the leading manufacturer and exporters of Machines for Plastic Processing Industries

❖ **Rotary Pelletizer Machine**
   Rotary Palletizer Machine for master batches, LD, HD, HM, PP, HIPS, ABS (Acrylonitrile Butadiene Styrene), and PVC with a capacity range of 50 to 1000 kg per hour.

❖ **BLADE TYPE PELLETIZER MACHINE**

We manufacture **Blade Type Palletizer** for master batches, LD, HD, HM, PP, HIPS, ABS (Acrylonitrile Butadiene Styrene), and pvc with a capacity range of 50 to 200 kg per
hour.

HIRCO TOOLS

❖ **SCRAP GRANULATOR MACHINE**
We offer a wide range of hirco scrap grinders (granulators) that are used for various applications in polymers processing industries like injection molding, blow molding, rotomoulding and thermoforming cast film, PVC, UPVC, HDPE, LDPE, PP rigid & flexible pipes and articles. Further, these are also used in manufacturing plants to recycle the plant waste and rejected articles during manufacturing process. The scrap grinders reduces the space to store the volumetric rejected articles for storing and transporting for subsequent process in the form of compact packing to handle conveniently.
