

Key Features of HDMI Cable for High Speed with Ethernet

RH&L Technology : (US based designed) introduce first of its kind “ Dual Patented secure locking” manufactured in Taiwan.

Supports all resolution up to 4K x 2K,including 1080p & 3D,ARC for smaller and larger lengths up to 45 mtrs.

* **Fully HDCP compliant (High-bandwidth Digital Content Protection) and EDID (Extended Display Identification Data) supported.**

EMI isolation. (Electro Magnetic Interference Isolation) ensuring high fidelity signal delivery even at greater length upto 45 mtrs

Product Details of HDMI Cable for High Speed Ethernet

Introduces first of its kind “ Dual Patented secure locking “ HDMI High Speed with Ethernet cable

Supports all resolution up to 4K x 2K,including 1080p & 3D,ARC for smaller and larger lengths up to 45 mtrs.

* **Fully HDCP compliant (High-bandwidth Digital Content Protection) and EDID (Extended Display Identification Data) supported.**

* **EQ circuitry used to ensure full HDMI signal integrity is maintained**

* **Tested using well known brands, including Panasonic, Sony, Pioneer and Denon**

* **No external power supply required for longer length of 25, 35 ,40 and 45mtrs.**

* **Uses the +5 VDC power on the HDMI bus to enhance and repeat the signal (for longer length of 25, 35 ,40 & 45mtrs)**

* **Virtually doubles the length of digital video transmission capability**

This HDMI cable has gold plated connectors, gold plated shell, UL and RoHS Complaint (these are American complying standards),

double shield, and importantly **with metal housing and mesh jacket which provides better**

EMI isolation. (Electro Magnetic Interference Isolation) ensuring high fidelity signal delivery even at greater length upto 45 mtrs.

S.U.N. Media Ventures Pvt Ltd supplies RHNL HDMI Cable for High Speed Ethernet.
